# IOHD AZEEM

Hyderabad, Telangana

#### SUMMARY

Software Development Engineer with expertise in Java, Spring Boot, and Microservices. Experienced in designing scalable backend systems, RESTful APIs, and cloud-based fintech solutions. Passionate about optimizing performance, integrating third-party services. Strong problem-solving skills with a focus on delivering efficient and user-centric applications...

## **EDUCATION**

Bachelor of Technology in Computer Science - CGPA - 8.5

2019 - 2023

 $Maulana \ Azad \ National \ Urdu \ University \ (NAAC \ A+)$ 

Hyderabad, Telangana

Higher Secondary Education - Percentage - 76.4%

2016 - 2017

MSN Inter College

Ambedkar Nagar, Uttar Pradesh

## **EXPERIENCE**

## ePayLater Fintech

January 2024 - November 2024

Software Development Engineer

Gurgaon, Haryana

- Developed and optimized RESTful APIs in Spring Boot and Microservices architecture, reducing response time by 30%.
- Handled 10,000+ daily transactions on cloud infrastructure (Azure, with an interest in AWS).
- Integrated Freshdesk API with Spring Boot and Dropwizard, enhancing customer support functionality.

#### TRAINING

AccioJob

November 2022 - December 2023

Full Stack Development

Remote

- Completed an intensive Full Stack Development program specializing in Java, covering front-end, back-end, and system design concepts.
- Gained hands-on experience in Spring Boot, Microservices, and ReactJS for full-stack development.

#### PROJECTS

PhD Report Management System 🗷 | Java, Spring Boot, React, PostgreSQL, JWT

April 2025

- Developed a full-stack, role-based PhD Report Management platform enabling secure workflows for Scholars, Coordinators, and RAC Members.
- Implemented OTP-based registration with admin approval and JWT authentication.
- Built a dynamic report generation pipeline using Apache POI and iText to auto-fill DOCX templates and convert them to signed PDFs.
- Automated digital signature placement by RAC Members once all approvals were received.
- Created a lightweight frontend with **React (Vite)**, **Tailwind CSS**, and **Axios** to role-based dashboards.

- Quick Notes 🗷 | HTML, CSS, JavaScript

  Implemented features allowing users to write, erase, and change the brush color and download the created content as an image in JPG format achieving at least 60.0% functionality.
  - There are so many feature like you can write you can erase you can change the colour of brush and download this data in the form of image. This image format save in jpg file.

### TECHNICAL SKILLS

Languages: Java, Python, SQL, NoSQL, HTML, CSS, JavaScript

Developer Tools: IntelliJ IDEA, PostgreSQL, Postman, Docker, Git, Gitlab, Nginx, Jupyter Notebook Technologies & Frameworks: Spring Boot, MongoDB, Dropwizard, JDBI, RestAssured, TestNG, Hibernate, Azure Databricks, Microservices, Liquibase, AWS

Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, Software Engineering

Soft Skills: Problem-solving, Adaptability, Teamwork, Emotional Intelligence, Time Management, Collaboration
